Gas system details																																						
Location:								GRAMNY FLAT LOCATED AT REAR OF BUILDING																														
Device:								CON HW SYSTEM																														
Device make:								THERMANN 20																														
Device model:								20LP50-6																														
Serial number:									2018-02-600 -2767																					_								
Approval number:								9MK 10409																														
Gas device type:								□A/□B								□A/□B							□A/□B								□A/□B							
Gas capacity:								158 MJ/hr								MJ/hr								MJ/hr								MJ/hr						
Operating pressure:							_	2.76 kPa								kPa							kPa								kPa							
Commissioned:							র্থ Yes / □ No							-	□ Yes / □ No							☐ Yes / ☐ No							_	☐ Yes / ☐ No								
Instructions provided:						d:	☑Yes / □ No □ Yes / □ N															Ye			10			☐ Yes / ☐ No										
Fuel gas:								□ Natural gas □ ∕LPG □ Biogas □ Syngas □ Other:																														
Fuel gas supplier:									Sel	lf-su	ıpp	ly	W	Su	ppli	er:																						
Supply type:								IJ∕	Έxα	chai	nge	;		In-	situ	fill		□ 1	Vet	wor	k		Ot	her														
Supply pressure:									3 kPa (supply) / kPa (second stage regulator if a two-stage system)																													
Ga	IS	W	0	rk	d	et	ail	s																														
Date completed: 01 - 04 - 2019																																						
											☑ Installed gas system																											
☐ Installed or altered part of existing gas system (including decommissioning)																																						
☐ Certified existing gas system under s113 Petroleum and Gas (Safety) Regulation 2018														18																								
Description of gas work (include a diagram if appropriate):
